Sorry – This is on our end. The owner has several properties and I think he was confused which site I was talking about. I should have mentioned earlier this site is on the Mille Lacs Reservation, that's why I am interested in it.

Is the mix up on our end?

That's what I thought, but I just wanted to double check. There was a mix up in the sites.

Thanks.

Hello Mark – Please see below. I had another staff look into it, and she did not find anything reported in Onamia in 2015. I do not see any open leaksites at that address in Onamia.

I did a Onbase search of Duty officer report and no reports for Onamia for the whole year of 2015 and a search of Spill # in TALES results in nothing for 2015 in Onamia

Do you have time to dig into this for me?

Subject: Possible Leak Site (H & Oil)

Sarah,

I am trying to find out if there ever was a leak reported at H & L Oil located at 315 Main Street in Onamia. This would have been in summer of 2015. I was told that there was a release back in 2015, but I think the names and addresses are mixed up.
